2. Your brand’s fonts, colors and logo. No brand guide? We build the deck a simple one.
3. 2 rounds of revisions, and a PDF copy for sending.
4. A fixed price in writing before any work starts.

04 · HOW IT WORKS

Four Steps

1

Send What You Have

The current deck, an outline, a document, or just notes. Tell us who it’s for.

2

A Fixed Price

We count the slides and reply with the price and the date, in writing.

3

A First Look

A few slides come back first, so the direction is right before the rest is built.

4

Revise and Hand Over

You mark up the full deck, we revise it, and the editable file is yours.

What We Never Do

- ✖ We never show your deck to anyone, or use it as a sample, without your written yes.
- ✖ We never invent a number, a quote or a claim. — Every fact on a slide comes from you.
- ✖ We never hand back a locked file or a picture of a slide. — Everything stays editable.
- ✖ We never promise the room says yes. — We promise a deck that is clear, and looks the part.

Who Builds It

Your deck is built by someone who has made executive-level presentations for household-name companies.

That work was confidential, so we don’t name them, and we’ll never name you.

Is My Deck Kept Private?

Yes. What you send is used to make your deck and nothing else. We don’t show client decks as samples, and we don’t name who we’ve worked for.

NEXT STEP

Have a Deck Coming Up?

Tell us what it’s for and when you present. We’ll say honestly which of the three fits, with a fixed price in writing.

Questions We Get

What Counts as a Slide?

Every slide in the finished deck, title and closing slides too. Hidden backup slides you want cleaned up count; ones you tell us to leave alone don't.

My Deck Is Longer Than 15 Slides. What Then?

Each package has a fixed price per extra slide: $25 on Polish, $39 on Create, $65 on Story. We count the slides and put the total in writing before we start, so it never grows afterwards.

What Do You Need From Me?

For Polish, the deck. For Create, the content: an outline, a document, or rough slides, plus your logo and any brand guide. For Story, an hour of your time on a call, and whatever numbers and facts the deck should stand on.

Do You Write the Speaker Script Too?

On Story, yes: a word-for-word script in the notes under each slide. For a deck you already have, a script on its own starts at $595.
